

IT Services and Support Solutions Provider

Capability Statement

Intratek Computer, Inc. (Intratek) was incorporated in 1989 as an IT service and support firm. We are a privately held corporation with extensive experience providing IT services and support to governmental agencies, as well as the private sector. We have the ability to not only provide the required IT support; we also possess the ability to guide, direct, support and manage our personnel to ensure all contract requirements are not only met, but exceeded. Our areas of expertise include:

- Project Management
- Service / Help Desk
- BMC Remedy
- Desktop Support
- Web Development
- Database Administration
- Information Security
- Networking
- Cabling / Wiring
- Technical Writing
- Administrative Support
- Application Development
- Staffing

Core Differentiators

Intratek has over 26 years of experience providing IT Service and Support Solutions to the Department of Veterans Affairs (VA). We have successfully recommended and implemented IT Support Services at several individual medical centers and VISN-wide.

What Sets Us Apart

- In-depth knowledge and understanding of VA procedures and policies unsurpassed by other companies.
- We are vendor-neutral: our suggestions and/or recommendations are made in the best interests of the client, without the influence of commissions.
- Intratek recruits and employs local, highly qualified individuals in partnership with VA management, where VA management will have the opportunity to interview all prospective employees to provide input.

IT leaders are looking for a partner who will work with them to understand their specific needs and deliver results beyond the industry standard. We take pride in relationships with our clients and strive to deliver the best possible solutions. By identifying clients' needs, they are afforded proven, repeatable, and constantly improved processes for project success.
